## CLEAN HOME TREATMENT

### The Clean Home Treatment

#### Home Owners, Buyers, and Sellers

Regardless of whether you own your home, are preparing to sell your home, or wish to buy a home, a ThermoPhoto Inc. Clean Home Treatment™ interior air treatment can dramatically improve the interior friendliness and quality of your current home or a house that you wish to purchase. If you own your home and wish to provide a mold free, germ free, disinfected and sanitized home for yourself, your family and your pets; a ThermoPhoto Inc. Clean Home Treatment™ air quality treatment can accomplish this for you.

If you are selling your home and have fears that there may be odors that could negatively impact the marketability and value of your home, a ThermoPhoto Inc. Clean Home Treatment™ interior air treatment will remedy this problem and provide you with peace of mind.

Perhaps you want to purchase a house for yourself or as an investment, possibly a rental property to provide some extra income. Your realtor may have shown you some properties that look great on paper, but cause your nose to wrinkle the moment you walk through the door. It would be a great buy if it did not smell so odd or bad.

The ThermoPhoto Inc. Clean Home Treatment is an inexpensive disinfecting and sanitizing process. A single ThermoPhoto Inc. interior treatment will fully sanitize, disinfect, deodorize, and eradicate **mold, smoke odors, pet odors, dust mites, bed bugs, fleas & lice, bacteria, viruses, and all other kinds of vermin and pests** that might be deeply imbedded in carpets, furniture, mattresses, behind walls, under sinks, in cabinets and in drawers.

The ThermoPhoto Inc. Clean Home Treatment is a **"GREEN"** application for the home or business. There are no chemicals involved in the treatment process, which can add to the array of odors that may already be present.

The ThermoPhoto Inc. Treatment is 100% safe and non-destructive to home furnishings and appliances. It is necessary to remove all people, pets, plants during the Treatment process.
